Questions:

- What projects have you advocated for and seen success?
- What is your primary overarching goal as a neighborhood district? How do you set goals? Can you share some examples of current actionable goals?
- Why did you join the board of your neighborhood district?
- How do you communicate with residents in your district? If multiple strategies, which ones seem to work best?
- How do you welcome new residents? Do you have a strategy or protocol for tracking when new residents move in and how to welcome them? If so, is this limited to new homeowners, or do you have a strategy to welcome new renters as well?
- What are possible barriers to joining a neighborhood district?
- Are renters in your neighborhood district engaged?
- What would you like engagement with City Council to look like?
- What does it mean to be a neighbor?
